

Hello all!

This month I emailed the QR code to DBSA which is Depression and Bipolar Support alliance as well as to Integral Care in Travis County (improves lives of adults and children living with mental illness, substance use disorder and IDD). I sent it to the counseling coordinator at Lockhart ISD (and he emailed back with questions and to say that this was something he could very much use). I emailed it to a counselor at Dripping Springs ISD (who also emailed back with questions and to say that this will be helpful in her line of work), Seguin PD, First Baptist Church in Kyle and United Methodist Church in Kyle. I called the circulation desk at Wimberley Library and requested the NA book be put into the library which she said sounded great and she would do that. I printed meeting lists and with the help of others passed them out to the meetings. I physically brought the QR code to Nova Recovery in Wimberley and also asked if they would like to have some NA books. The guy said they had plenty of literature already.

Looking forward to seeing everyone's beautiful face tomorrow!!
